UPCOMING SUMMER CAMPS

1. Fitness Camp — July 9-27, 2007

Led by Physical Therapy staff, this 3 week program will focus on dietary concerns, fun exercise activities, nutritional planning, self-esteem and team-building games to encourage lifestyle changes combating the trend of Childhood Obesity in our society.

2. Handwriting Camp — July 9-20, 2007

Our 6th annual, fun-packed schedule of sensory-rich activities and a well-known handwriting curriculum is led by an Occupational Therapist. Each participant will learn a logical, easy format for letter formation, spacing and fluidity of writing along with a variety of action-packed coordination and strengthening tasks

3. Sign Language Camp — June 25-29, 2007

Learning to communicate in a world you cannot hear is difficult. Led by a Speech Pathologist fluent in American Sign Language, this special program will educate parents, professionals and children in sign language vocabulary building, role playing, social rules for communicating with deaf individuals, discussions, games and guest speakers.

4. Listening Fitness — June 4-23/July 24-Aug 11, 2007

This music based program enhances sound discrimination/processing, reading, spelling, attention, concentration, speech and motor control and flow in learning. Led by a trained Speech Pathologist and Occupational Therapist, this 6 week intensive program will offer dramatic changes in these areas.

5. Interactive Metronome — June 5-26, 2007

Use of this computer-based program has been researched to show improvement in attention and concentration, motor control and coordination, cognitive processing, reading/math, control of aggression/impulsivity. Screening by a licensed Occupational Therapist will determine eligibility

6. Sensorimotor Camp for Toddlers — Aug 6-10, 2007

This interactive session will include activities developed and led by an Occupational Therapist to encourage toddlers of all abilities the chance to participate in sensory-rich coordination, play & socialization activities.
